OTHER WIDE SPECIALITY SURVICE

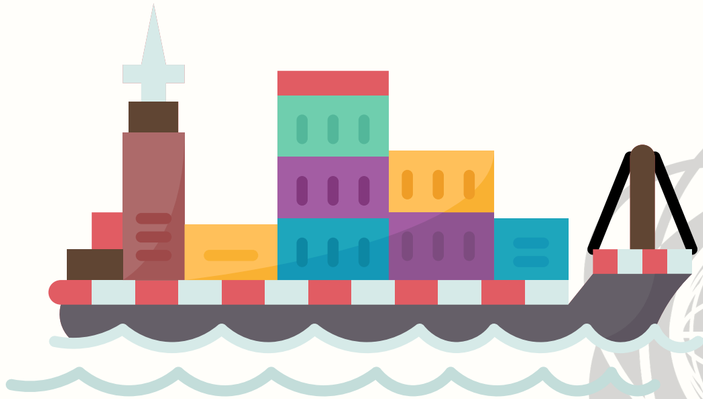

OCEAN & AIR SERVICE

Our customized Air & Ocean transportation services guarantee you a prompt, reliable, quality services at the economical rate!

As a result of the technological advances and development in information systems during the past decades, “speed” became one of the most competitive factors.

We understand that fast, cost efficient, quality logistic service is one of the key elements for you to be successful in today’s competitive global market. And thus, our dedicated team of knowledgeable, experienced professionals offers customized services to make sure each customer’s domestic and global transportation needs will be met.

PROJECT SERVICE

The effective export of raw materials and equipment that are used as project cargo in plants, factories and facilities constructed in every city of the world requires continuous links with overseas bases and accumulated transport know-how.

FATES INC. has over many years extensive experience in transporting heavy equipment and materials and plant equipment between Japan and other countries. We provide our customers with safe, accurate international transport services based on careful, detailed support by highly skilled staff using a highly developed international network in Asia, Europe, and the rest of the world.

We achieve logistics efficiency and cost optimization tailored to our customers' specific needs.

Unloading & Customs clearance

Unloading & Customs clearance after arrival

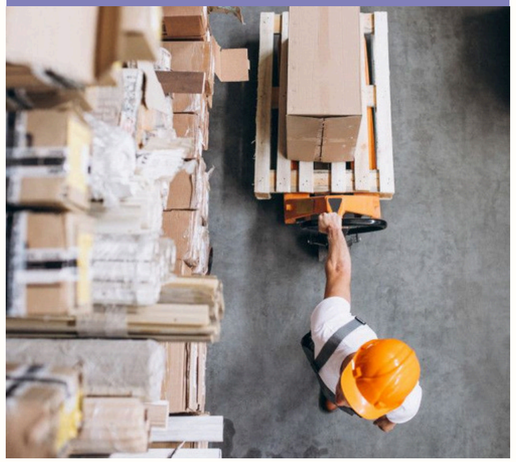

Receiving & Cheking

Receiving & Checking cargo at warehouse

Warehousing

Storing and Packing & Picking

Releasing & Delivery

Releasing & Delivery to the customer

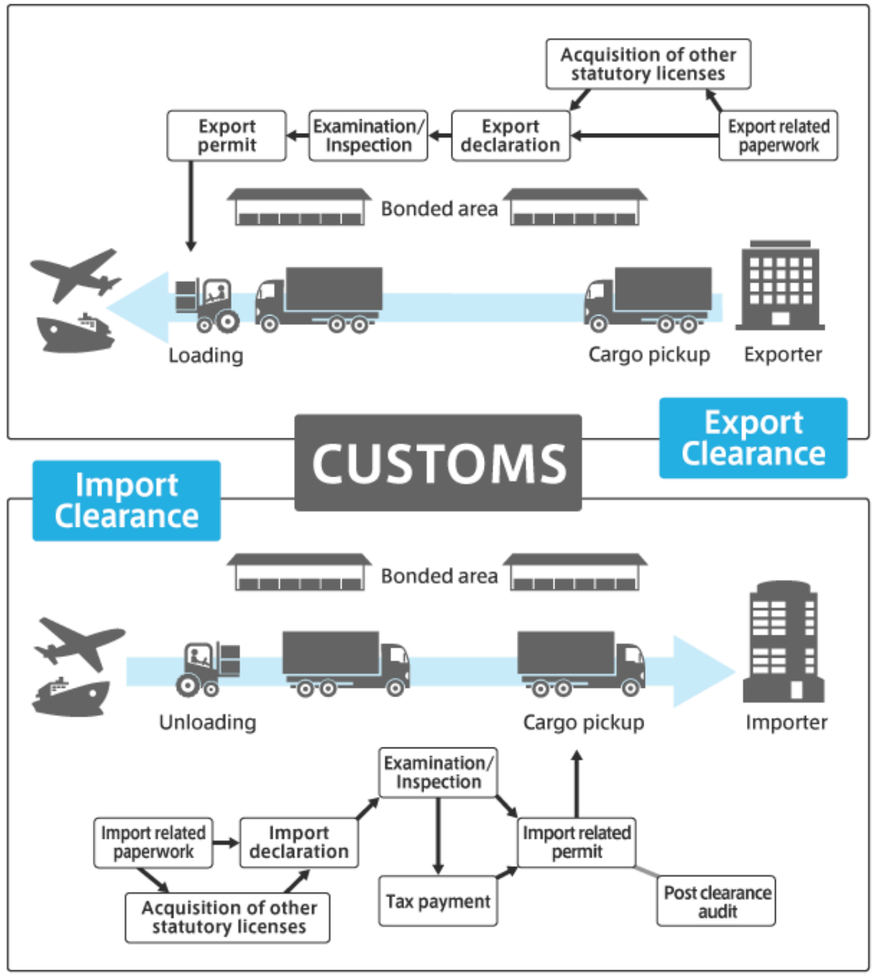

CUSTOMS CLEARANCE SERVICE

“Shipments Cleared Faster, Easier, and with Less Hassle”
Whether you’re shipping in or out bound,
our experience will take care of your shipments.

In Japan, export and import cargo operations are managed through NACCS(Nippon Automated Cargo and Port Consolidated System). A distinctive feature of this system is that customs clearance for exports and imports is only granted when the cargo is brought into a bonded warehouse (Customs Area) registered with NACCS.

At FATES, our experts have in-depth knowledge of this Japanese system, allowing us to provide fast and flexible customs clearance and warehousing services, even under tight lead times.

FOOD TRANSPORTATION SERVICE

The complex process of food transportation is always a major concern for our customers.
We aim to be the key to resolving the concerns by offering accurate & professional advice.

Before Import

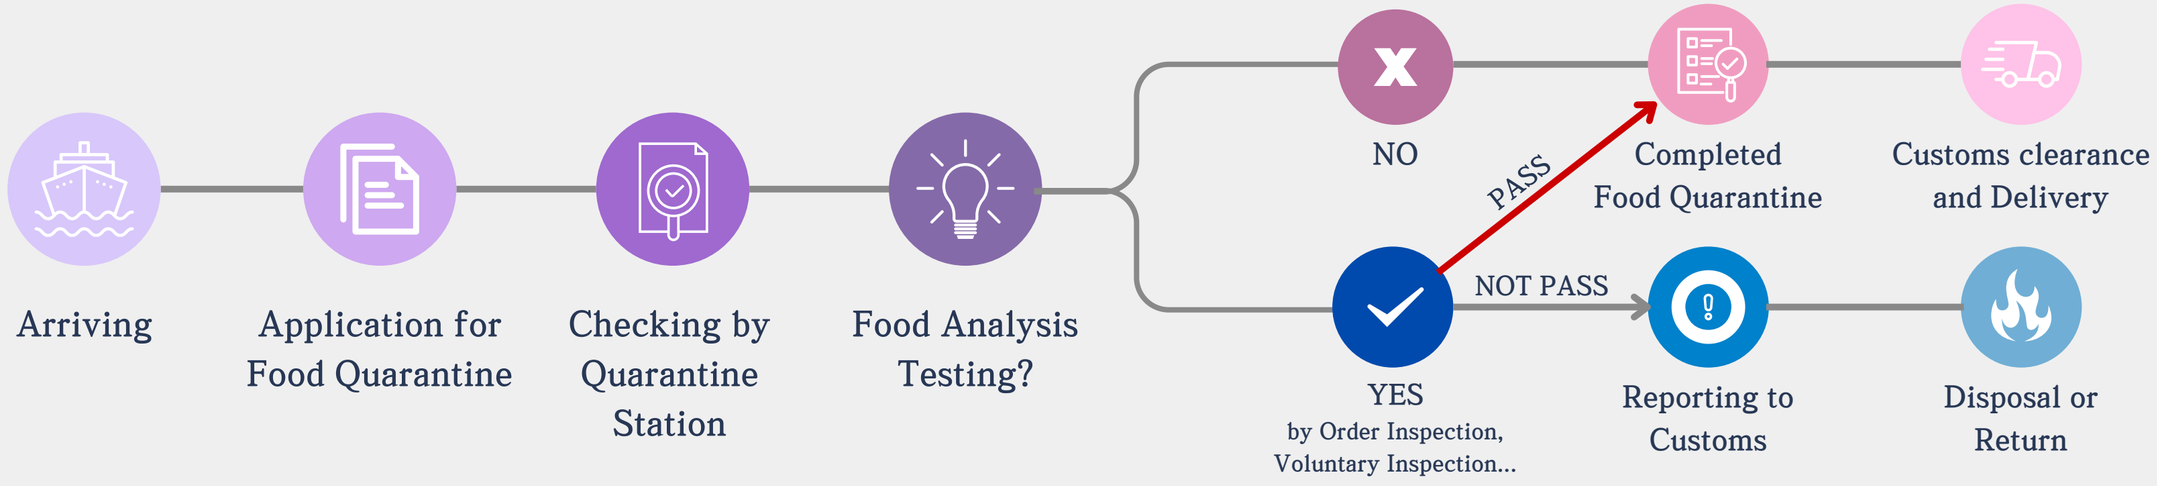

Pre-screening of additives and prohibited ingredients
Preparation of documentation based on shipment volume and relevant regulations

In The Process of Importing

Handling inquiries and responses from the MHLW
Customs clearance support and management

After Import

Editing of collective labeling, stickers, and packaging
Preparation of product specifications and technical documents

OTHER WIDE SPECIALITY SURVICE
